JCB

WATLING JCB

## The new premier range of JCB Generators

When reliability is vital to secure your power supply no matter where you are in the world, then JCB has a high quality, high output range from 730 – 2000kVA. The Premium range is powered by high performance engines and packaged in robust and durable containers for superior protection.

# The brand new range of JCB RS Rental Generators

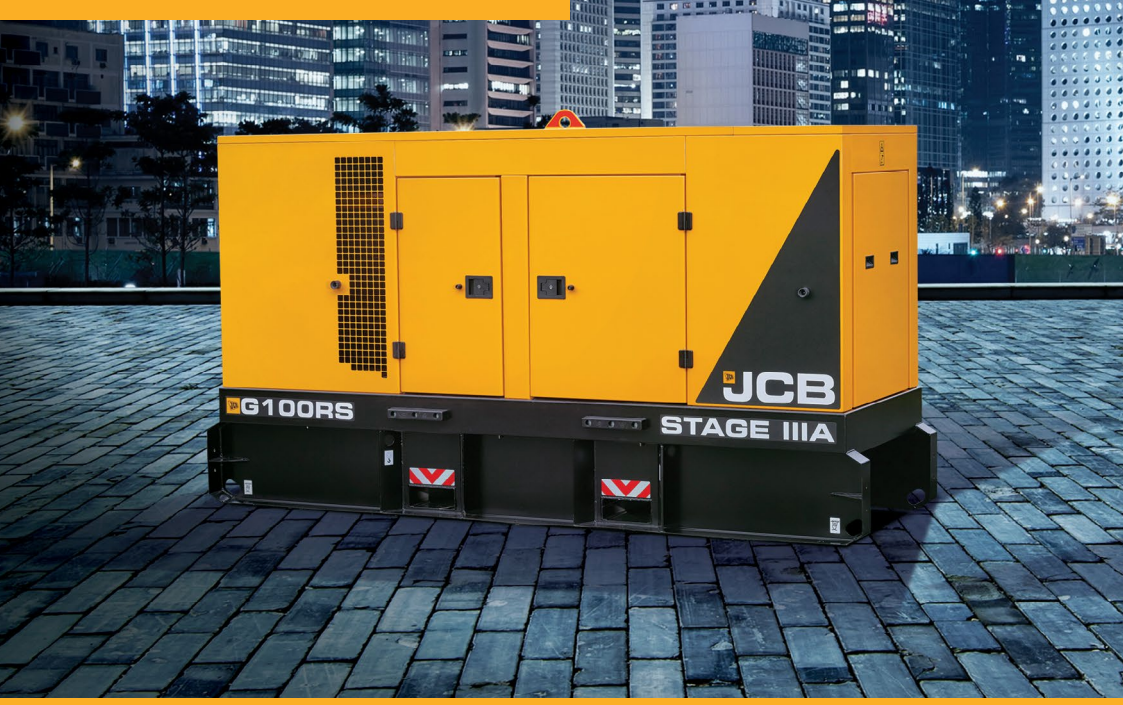

Designed for a long and hard working life, our new premium RS rental range is aimed squarely at the power generation rental market. Powered by the award-winning JCB Dieselmax engine the initial four diesel generator models offer outputs of 60, 80, 100 and 125kVA and are the ideal generators when temporary power is essential to keep you and your business up and running.

For units ordered between 1st March and 30th June 2017 we have a fantastic INTEREST FREE HP offer. UK business users only. Terms apply.

**50% deposit, 12 month payment pause, then 50% balance.**

**Standard spec on RS Generators**

- JCB 4 cylinder Dieselmax engines
- Renowned Mecc Alte alternators
- Deep Sea Electronics controllers
- JCB LiveLink
- Long run fuel tank

# The new range of JCB QS Generators

The recently launched QS range of Generators from JCB is a cost-effective power solution that offers productivity and efficiency in many common applications. Thirteen compact and lightweight models - available in both open and canopied configurations - are available in power outputs from 20 – 220kVA ensuring a solution for every job site.

**Standard spec on QS Generators from Watling JCB**

- JCB Generator engines offer low fuel consumption, low noise and great reliability
- Renowned Mecc Alte alternators
- Deep Sea Electronics controllers
- Socket packs
- JCB LiveLink telematics to monitor, evaluate and track location of your generator fleet

**Canopied models are manufactured from high quality steel with a single piece roof and large heavy-duty service doors.**
